WALTER S. SCHELL'S QUALITY SEEDS

FOR 1910

Purest and Best

They Grow Better

They Yield Better

WALTER S. SCHELL

1308 Market Street

::

HARRISBURG, PA.

A Few Words to My Friends

For more than ten years I was with Holmes Seed Co., and during that time it was a pleasure for me to serve you. I tried always to be worthy of the confidence you displayed in me, and in presenting to you this, my first, "little" Catalogue, announcing the beginning of my own seed business, I do so believing your confidence will mean your patronage. I will endeavor to serve you in an entirely satisfactory way.

The Quality of My Seeds. Being in close touch with you who grow for market, I am able to appreciate just what it means to you to have good seeds and it is with some pride that I offer you now, and will always hereafter, the **highest quality seeds, absolutely the best**, direct from the farms of the best growers to myself, thus overcoming any possibility of errors and making sure that you get **new crop seed**—not old seed.

New seed and old seed, good seed and bad seed when put side by side **look** very much alike. It is almost impossible to tell the one from the other by **appearance**, hence to know you are getting **new crop seed** and **the best seed** you must have **confidence in the man** to whom you entrust your order, that he will give you nothing but the best. It is my purpose to prove myself worthy of such confidence.

May I have your order? **I know my quality seeds** will please you. I have everything for the garden, lawn, farm, dairy and poultry. **A complete line of Planet Jr. Garden Tools.**
